So why do we fill our bags and pockets with more gadgets, cables and accessories than ever before? This touchscreen monitor is an entire suite of offices and entertainment features packed into the lightest portable touchscreen monitor ever. They tried to put a whole suite of features for work and play in an ultralight monitor. Staring at screens all day is bad for your health. This monitor uses more eye protection functionality so you can power through overtime or crush those study sessions all night long without migraines, itchy eyes and blurred vision. vision.
